

GP No.1 & No.2

The GP No.1 and GP No.2 are Gripple's answer to terminating trellis wire at a metal end post, or as support for shade cloth wires.

ADVANTAGES

- Join and tension the wire in one
- Easy to tension and re-tension
- Up to 4 times faster than knotting or other traditional methods
- Tension as normal, with a Gripple tensioning tool
- High grade ceramic grip for optimum corrosion resistance
- Supports the load in only one channel
- Works on steel wire, monofilament/nylon wire and cable/wire rope

INSTALLATION

SPECIFICATION

Product	Wire diameter	Wire gauge - ga	Max Load
GP No.1	1.80 - 3.00mm	15 - 11	400kg
GP No.2	3.00 - 4.20mm	11 - 7 ^{1/2}	600kg

TIPS

- Loop the tail wire back into the blank channel for safety.
